KIOXIA

We are Ready for Next

Our company name has changed, but our product range, quality, service and reliability are still the same.

KIOXIA Europe GmbH (formerly Toshiba Memory Europe GmbH) is a leading supplier of Flash Memory, Solid State Drives (SSDs) and Retail Products (USB, Memory Cards, SSDs).

From the invention of NAND flash memory in 1987 to today's breakthrough BiCS FLASH™ , KIOXIA continues to pioneer innovative memory solutions with high quality and reliability. The company's renowned BiCS FLASH™ 3D flash memory technology is an important component in almost all devices and applications where data need to be stored. KIOXIA is leading a new era by providing advanced memory solutions to enrich people's lives. By evolving "memory", KIOXIA creates uplifting experiences and changes the world.

What does KIOXIA mean?

The name KIOXIA is a merger of two different words: the Japanese word kioku means "memory" and the Greek word axia means "value".
