

About ams

Shaping the World with Sensor Solutions.

Leading manufacturers around the globe rely on ams' sensing know-how for advanced systems design. For ams, "Sensing is Life" and our passion is in creating the sensor solutions that make devices smarter, safer, convenient and more environment-friendly. ams' sensor solutions are at the heart of the products and technologies that define our world today – from smartphones and mobile devices to smart homes and buildings, industrial automation, medical technology, and connected vehicles. Our products drive applications requiring small form factor, low power, highest sensitivity and multi-sensor integration. We offer sensors (including optical sensors), interfaces and related software for consumer, communications, industrial, medical, and automotive markets.

**We enable our
customers to develop
products that are smarter,
safer, convenient and more
environment-friendly**

ams by numbers

- More than 35 years of design experience
- About 11,000 employees worldwide
- Serving more than 8,000 customers
- 22 design centers across Europe, Asia and USA
- 14 sales offices worldwide
- 25+ sales channel partners

Our business

- High performance sensor solutions, sensor ICs, interfaces & related software
- Small, low power, highest sensitivity, multi-sensor integration
- Best-in-class solutions for leading OEMs
- Full service foundry including packaging and testing options

Our focus

- Optical
- Environmental
- Imaging
- Audio

Scalable manufacturing model

- Internal wafer manufacturing, Austria
- Internal optical packaging, Singapore
- Manufacturing partnerships for scalability and flexibility
- In-house test, Austria + Philippines

Financial information, fiscal year 2017

- Group revenues: €1,063.8 (2016: €549.9m)
- Net income: €127.5m (2016: €102.9m)

Management Board

Alexander Everke
Chief Executive Officer

Michael Wachsler
Chief Financial Officer

Thomas Stockmeier
Chief Operating Officer

Mark Hamersma
Chief Business Development Officer

Corporate responsibility

- Member of the UN Global Compact
- CDP (Carbon Disclosure Project) member
- Conflict metals/hazardous-use materials program implemented

Quality commitment

- ISO/TS16949 certificate
- ISO13485 certificate
- ISO 14001 certificate
- Zero defect commitment with industry-leading field failure rates
- Global quality systems with local resources in key markets
- Top rankings by customers
