

# Handy Virus Detection USB

*You can detect viruses easily.*

## What you do

- Your workers charge their own smartphones from your machines.
- You want to maximize your productivity.

## What we offer

- Vaccine USB3 detects viruses in your machines infected from their smartphones.
- Vaccine USB3 removes viruses from your machines for higher productivity.

Do you believe your machines don't have any viruses? Please be aware that your machines can be infected with computer viruses from multiple ways. For example, smartphones of your workers, USB memories of your engineers... Not only via internet.
