

Critical parts. Secure supply.

Independent electronic-component sourcing for OEM and EMS teams, helping secure critical parts and keep production moving.

QUOTES WITHIN 24 HOURS

Six core capabilities.

Resilience, sourcing and quality from one supply partner.

01 Supply continuity

Shortage and allocation support for hard-to-source and long-lead components.

02 Procurement & sourcing

Independent sourcing with clear availability, lead times and commercial options.

03 Market insight & BOM review

Review component lists for risk, availability and practical sourcing options.

04 Lifecycle planning

Plan around NRND, EOL and last-time-buy needs to support ongoing production.

05 Excess stock & fulfilment

Excess inventory solutions plus traceable fulfilment with EU delivery.

06 Quality & documentation

Supplier checks, incoming inspection, CoC and ISO-certified management systems.

ILLUSTRATIVE COMPONENT IMAGE

Where supply meets production.

GlobX is an independent component distributor and sourcing partner for OEM and EMS teams across Europe and worldwide.

Industries we support

- Aerospace & space
- Industrial automation
- Medical & agriculture
- Energy
- Telecom & data
- Automotive & transport
- Electronics manufacturing
- Raw materials & logistics

REPRESENTATIVE COMPONENT FAMILIES

Coverage from active programmes to constrained or end-of-life parts.

01

Memory & storage

02

MCUs & processors

03

FPGAs & logic

04

PMICs & regulators

05

IGBTs & discretes

06

RF & transceivers

07

Sensor interfaces

08

Rectifiers & diodes

09

Serial / bus interfaces

Illustrative imagery; component availability varies by part.

MEMORY & STORAGE FOCUS

DDR / LPDDR • NAND / NOR • eMMC / UFS • SSD • HBM

QUALITY & TRACEABILITY

Trust you can verify.

TÜV Rheinland certified to ISO 9001 and ISO 14001. Supplier verification, documented incoming checks, traceability and Certificates of Conformance support an auditable process.
