

Let our crowd engineer your solution. Faster.

What is Surcle?

Surcle.io is an online, crowd-engineering platform where engineers and innovators collaborate and compete in challenges from corporations, startups, and institutions with a focus on electronics and manufacturing.

The evolution of idea to market is long, difficult, and expensive.

Corporations, Startups, and Institutions always face the problem of not being able to bring products to market with limited resources.

Not enough

TIME

Not enough

RESOURCES

Customer Success Defined

Our Team has a pre-built and tested framework, allowing you to launch your project immediately. Sign-up, Privacy, Legal Agreements, Copyright, IP Transfer, Communications, Submission and Judging Processes have been created, so you can focus on the solution and not the problem.

Thank you.

Let our crowd engineer your solution. Faster.
