

Out in Front

Fusion Worldwide is the preeminent global distributor of electronic components and products.

The Fusion Worldwide Advantage

Since 2001, Fusion Worldwide has established a reputation for reliability, integrity, and an unwavering commitment to excellence. We source, inspect, test, and deliver an extensive range of electronic components for a large, diverse portfolio of customers, including OEMs, CEMs, and ODMs. Let Fusion take you where you need to be: **Out in Front.**

Services

- Sourcing
- Cost Savings
- Excess Mitigation
- Inventory Management
- Product Lifecycle Management

Market Intelligence

- Global Pricing Trends
- Product Analysis
- Lead Time Updates
- Commodity Experts
- Proprietary Trading Tool

Global Footprint

- 20+ International Offices
- 24x7 Customer Support
- 8.5K Global Suppliers
- 500+ Employees

Financially Stable

- \$2B+ in Revenue
- Privately Held Since 2001
- \$500M Credit Facility
- \$20M Liability Insurance

The Assurance of Quality

Quality is in everything we say and do. It's who we are. With the latest industry certifications and memberships plus 35+ degreed quality engineers – *who work in our test lab, with our customers, and on our inspection floors* – Fusion Worldwide has set the open market quality standard for over 20 years. One example is our acquisition of Prosemi, Southeast Asia's most trusted test house, in 2022. This acquisition made us the first *and only* independent distributor with a vertically integrated test house. For more information on Prosemi, visit prosemi.com.sg

Quality Certifications

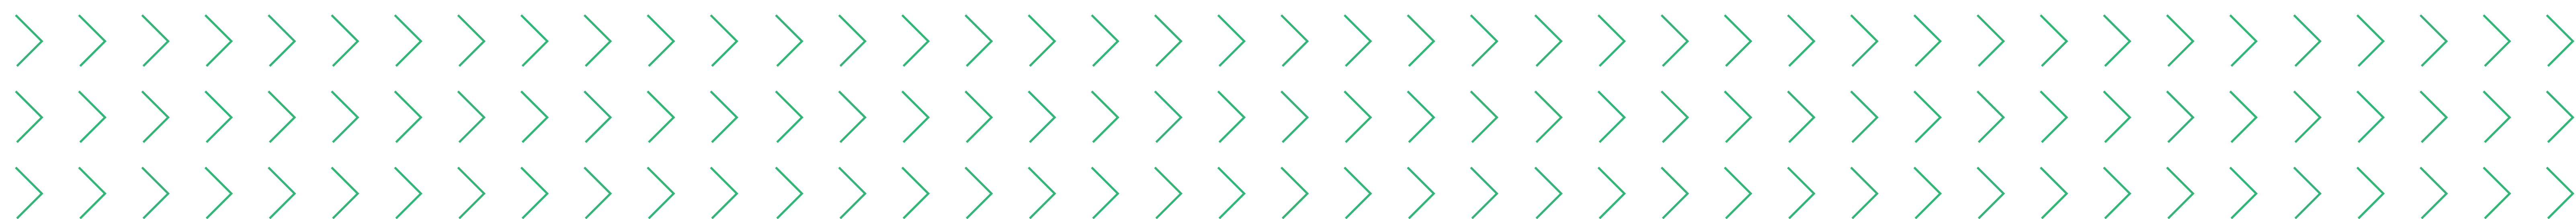

- ISO 17025 AS6171
- AS9120
- ISO 9001
- ISO 14001
- AS6081
- ANSI ESD S20.20
- QMS STD 9090
- QSLD/QTSL
- TAPA FSR 2020

- Scout RMS™: Proprietary Quality System
- 5 State-of-the-Art Quality Centers
- Destructive & Non-Destructive Testing Labs
- 5-Phase, 100-Point Inspection
- 35+ Degreed Quality Engineers
- Prosemi Test-House

Insights to Get You Out in Front

Our market intelligence reports help you navigate the open market and proactively plan for whatever comes next.

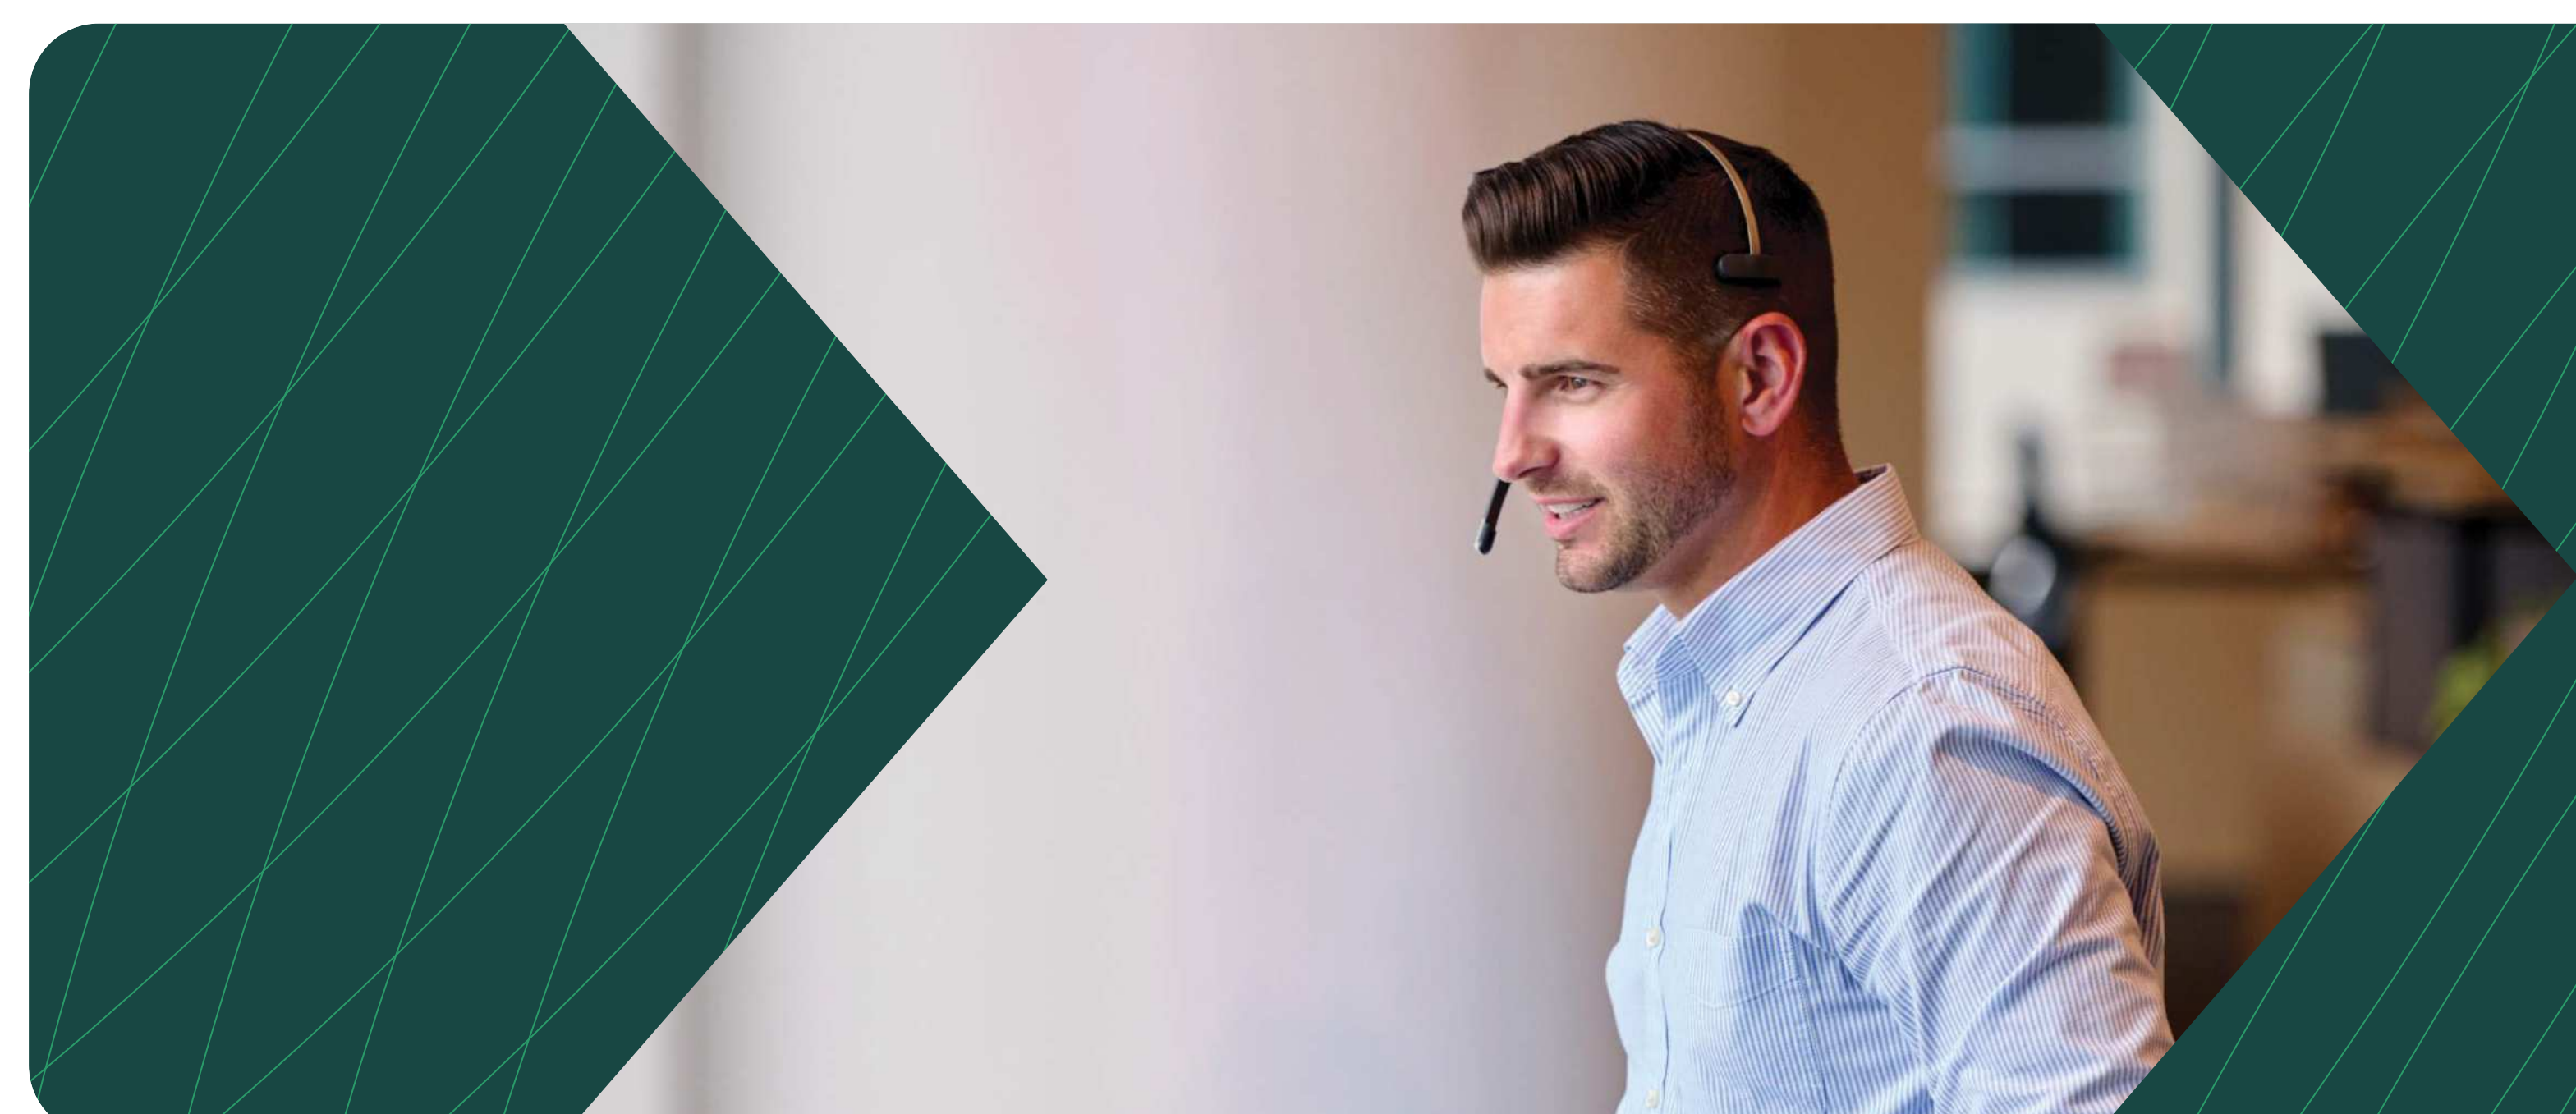

- **The Greensheet:** Our monthly market intelligence report detailing the most significant developments across the electronic component supply chain, including insights into manufacturers earnings calls and various commodity groups.
- **State of the Industry Report:** Our bi-annual report provides a comprehensive overview of trends within the global semiconductor industry, market dynamics, and technological advancements.
- **Rapid Response:** We provide timely updates on events that directly impact the electronic component supply chain, helping you anticipate and adapt to potential disruptions within the industry as soon as they occur.

Industries We Serve

- Automotive
- Aerospace & Defense
- Consumer Electronics
- Contract Manufacturing
- Enterprise Computing & Server
- Energy
- Gaming
- Healthcare
- Industrial Automation
- Personal Computing
- Semiconductor Manufacturing
- Telecom & Networking

Products We Offer

- Cards
- Connectors
- CPUs
- Discretes
- Electromechanical
- GPUS
- Integrated Circuits
- Memory
- Passives
- Peripherals
- Sensors
- Storage
