

AKTINA

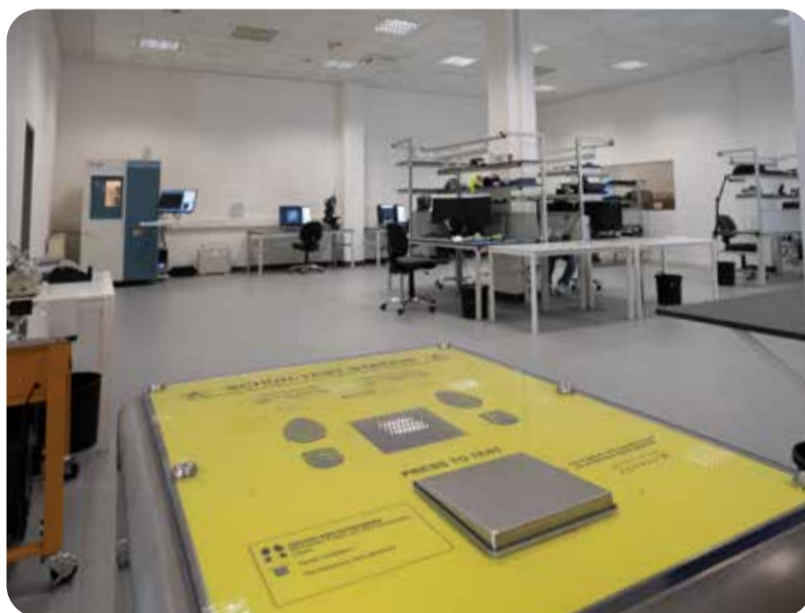

COMPONENT DISTRIBUTION SERVICES

**Your one stop shop
and full range distributor
of electronic components.**

AKTINA CDS is a global sourcing and supply chain solutions company in the industry of electronic components

We have built our business by blending together the expertise of an experienced professional independent distributor, with the quality standards that you would expect from a franchised distributor.

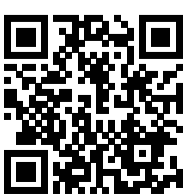

From component sourcing and distribution to aftermarket services, AKTINA's complete range of solutions offers customers a means of driving value throughout the product life cycle. With a global verified sourcing network and market intelligence, AKTINA delivers high-quality parts, exceptional customer service and tangible value to clients worldwide.

- ▶ As an authorised EU importer/exporter, we take over all import & export documentation for you.

Our state of the art lab equipment

ESD Baking Oven

X-Ray Chip Counter

3D X-Ray

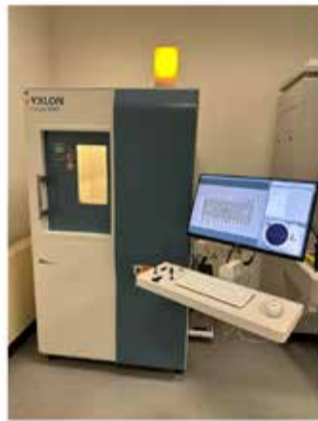

Vacuum Machine

Auto Soldering Station

Decapsulation Station

2D X-Ray Machine

HD Digital Microscope

Material Analyzer

ESD Strapping Machine

Tape & Reel Machine

Industrial Multimeter

Tests that we perform Internaly

- ▶ Visual inspection
- ▶ Dimensions check VS datasheet
- ▶ X-ray analysis
- ▶ Material analyzing
- ▶ Solderability test
- ▶ RoHS analysis
- ▶ Marking permanency and blacktopping
- ▶ Die inspection = decapsulation
- ▶ MSL check and baking according to JEDEC guidelines

Upon request we can involve also external/independent test houses.

Industries we support

Defence

Automotive

Automation

Industrial

IOT

Computing

Aerospace

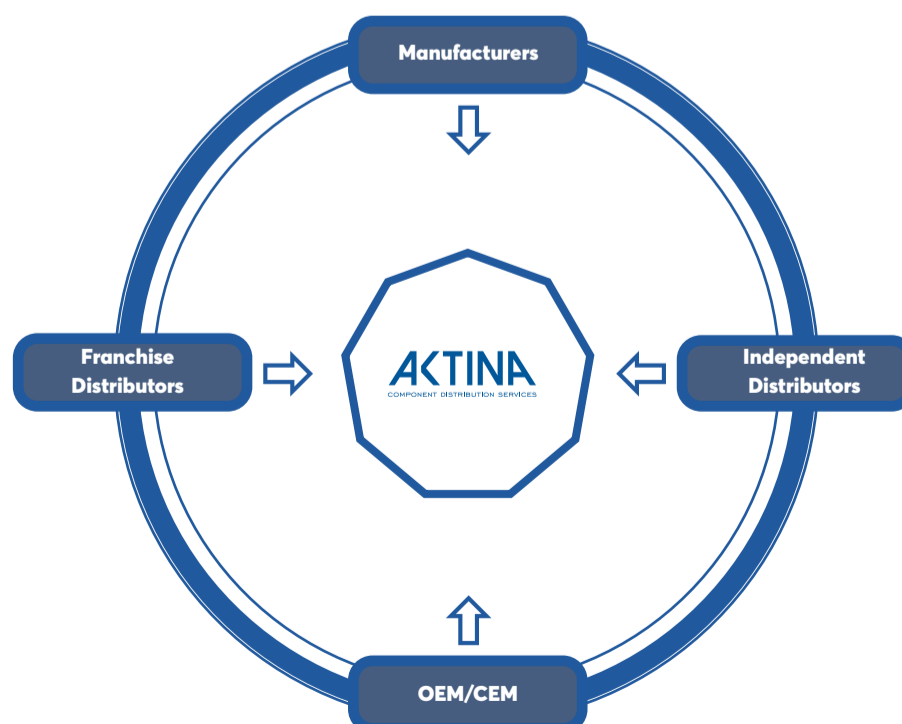

Consumer Electronics

Traceability

Our main sources for electronic components are: Manufacturers directly, Franchised distributors worldwide, OEM XS material, CEM XS material, verified and approved Independent sources through many years of collaboration.

We rise, by lifting others
